Skills

I am a passionate and well-rounded full-stack developer. When working on projects I focus on efficiency with modern design methods.

ASP.NET, C#, JQuery, JavaScript, Java, SQL, React, JavaScript, CSS, HTML, C, Racket, GitHub

Experience

Belvista Software / Software Developer

April 2022 - Present, Rochester, New York

- Single-handedly developed a web application to track time against client projects. This product saves thousands per year by replacing the paid-subscription used previously.
- Built custom reports in Microsoft Report Builder to bill clients from the Time Tracking application entries.
- Saved hundreds of hours for clients by creating dynamic software to process files from creditors into their debt collection system.
- Created a beautiful Client Portal web application for clients to manage and process files received from creditors.

Strategic Financial Solutions / Financial Consultant

August 2019 - June 2020, Williamsville, New York

- Worked 1 on 1 with 30+ clients each month in order to assess their financial goals and find customized solutions.
- Managed appointments for clients, meetings with team members, and training with staff.
- Ran reports on Excel for my manager to help team performance

Coast Professional Inc. / Sr. Account Manager

December 2013 - July 2019, Geneseo, New York

- Student Loan servicing to 50+ borrowers each month including paperwork and multiple follow-up calls to maintain retention.
 - Responsible for team performance, handling disputes, and credit card information for borrowers in absence of a manager.
 - Created a company-wide tracking spreadsheet for monthly goals.
-

Education

SUNY Oswego / Bachelor in Computer Science

August 2021 - December 2022, Oswego, New York

SUNY JCC / Associates in Computer Science

January 2019 - December 2020, Jamestown, New York
