### Skills

I continue to broaden my knowledge and skills on different personal/school projects. I have primarily worked on projects with **Java**, and I am currently working on a **React** project. I am a motivated, fast learner, and open to learning new techs/languages.

All Skills: Java, Python, SQL, React, JavaScript, CSS, HTML, C, Racket, GitHub

---

### Experience

#### Strategic Financial Solutions / Financial Consultant

August 2019 - June 2020, Williamsville, New York

- Worked one on one with clients in order to asses their financial goals
- Scheduled appointments with clients, meetings with team members, and trainings with staff.
- Worked with 30+ clients each month.
- Ran reports on Excel for my manager to help team performance

#### Coast Professional Inc. / Sr. Account Manager

December 2013 - June 2017, Geneseo, New York

- Provided Student Loan servicing and collection assistance to 50+ borrowers each month including paperwork and multiple follow-up calls to maintain retention.
- Responsible for team performance, handling disputes, and credit card information for borrowers in absence of a manager.
- Created and maintained a company-wide tracking spreadsheet that was flexible for different departments.
- Excelled every month in every target area, provided training to my team and other staff.

#### Windham Professionals/ Account Manager

December 2017 - July 2018, Elma, New York

- Brought my knowledge and experience to the Company in order to help my team and manager become number one performing team each quarter
- Reliable among my peers to assist with borrower confrontations, talk-offs, and Department of Education-specific questions.
- Assisted with transition when absorbed by Coast Professional Inc

### Education

#### SUNY Oswego / B.A. in Computer Science

August 2021 - December 2022, Oswego, New York

#### SUNY Jamestown Community College / A.S in Computer Science

January 2019 - December 2020, Jamestown, New York
